

Says:

To track the children in public places (park, schools etc.,)

Unable to avoid unnecessary and repeated allots

Think:

It is very useful to detect/monitoring (caring/safeguard) the children in public places.

Does:

To detect the children if they cross the particular geofence and allot to the parents

Feels:

Very useful to maintain and protecting the children in public places that makes feel very safe.

Users:
Parents and children care taker
